For: REPLACEABLE VALVE SEAT RING WITH  
ENHANCED FLOW DESIGN

**INFORMATION DISCLOSURE STATEMENT (IDS)**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Dear Sir:

Pursuant to 37 CFR 1.56, 1.97 and 1.98, the attention of the Patent and Trademark Office is hereby directed to the references listed on the attached PTO/SB/08. It is respectfully requested that the information be expressly considered during the prosecution of this application, and that the references be made of record therein and appear among the "References Cited" on any patent to issue therefrom.

This Information Disclosure Statement is filed before the mailing date of a first Office Action on the merits as far as is known to the undersigned (37 CFR 1.97(b)(3)).

Copies of the U.S. references on the PTO/SB/08 are not provided. Copies of the non-U.S. references are enclosed.

This application is a continuation of U.S. Application S.N.10/144,976, filed May 14, 2002 and relied upon in this application for an earlier filing date under 35 U.S.C. 120. The references cited herein were made of record in the parent case.

The non-English language references, as best currently understood, disclose various valve seat configurations. For example, Belgium document BE 537 256 and German document DE 1 098 311 disclose water faucets and valve seat constructions. Swiss document CH 320 481 discloses a valve seat that can be threaded into place in a valve and that has a central region between the inlet and outlet that appears to be a hex-shape tool accepting contour. French document FR discloses a valve seat and tool for inserting same, wherein the tool has a standard screw driver-type configuration. Lastly, German document DE 165 235 discloses a valve with a seat that appears similar to the seat of the Swiss document.

The Director is hereby authorized to charge any deficiency in the fees filed, asserted to be filed or which should have been filed herewith (or with any paper hereafter filed in this application by this firm) to our Deposit Account No. 13-2855, under Order No. 06005/37837B. A duplicate copy of this paper is enclosed.

Dated: June 11, 2004

Respectfully submitted,

By   
Bryan J. Lempia
